## Additional Important Information

1. Flight costs varies at very short notice please plan to book flights early to secure reasonable prices.
2. Yellow Fever Vaccine Cards are required at the points of entry
3. COVID requirements for entry and departure are available on airline websites.
4. A Negative PCR test is required to enter Ghana
5. A test will also be conducted on arrival at the airport. Results are ready within 30 minutes. This test costs USD 50, HG 350 0r Equivalent N35,000. Payment for this test is in advance of Travel and usually we have to pay for you from here. Nigerian travelers find it difficult to pay from Nigeria. Please let us have the funds in time. Payment must be made and the traveler enrolled latest 48hrs to the Journey.
6. In preparation for departure to Nigeria by air after the event, the Nigerian authorities require a negative PCR test to be presented on arrival. Please note as follows:
  - (i) Fully Vaccinated individuals will require the test results above to be presented and will also be required to do a COVID test on day two of arrival
  - (ii) Partially or not fully vaccinated travelers will be required to present a Negative PCR test as well as do COVOD test in country on day two and day seven. Please check with designated COVID test center for cost implications (N39,900 per test)
7. All tests to be done in Nigeria must be paid for before leaving Ghana
8. All travelers irrespective of vaccination status are to upload the PCR test done at the point of origin to the NDDC Website to generate the “**Permission to Enter Nigeria**” document. This document will be required together with the PCR test on arrival at either Lagos or Abuja airports.
